**Doc Ref PS-SM009**

Version Number	Change	Author	Date
1.0	New document	Author: PSC Approval: CSVS Exec committee	Dec 2025

### **Purpose**

This document was prepared by the Professional Standards Committee (PSC) of the College and Society for Clinical Vascular Science (CSVs) to support the writing of local job descriptions for Vascular Science. This document may be used in its entirety (or referenced in part with suitable additions made by local policy implementers) by all parties involved with clinical vascular science. Suggestions for improving this document are welcome and should be sent to the Chair of the PSC (see [csvs.org.uk](https://csvs.org.uk) for current PSC Chair details).

Note the coloured text will help highlight areas of specific expertise such as education or research, however some or all of the specialist vascular scientist roles may be applicable.

See the CSVs Scope of Practice for Diagnostic Procedures for additional information.

Band 8a	SVT Specialist Clinical Vascular Scientist Job Description*, Version 1, Sept 2024
<b>Job Summary</b>	<p>A Specialist Clinical Vascular Scientist role is to ...*</p> <p><i>* A Specialist Clinical Vascular Scientist role will be the similar to a band 7 Clinical Vascular Scientist with additional higher level specialist skills and duties which may include the following listed. This is not an exhaustive list, and there may be additional skills and duties required on a local level.</i></p> <p><i>As the role of a Specialist Clinical Vascular Scientist (sometimes referred to as a Senior Clinical Vascular Scientist) may focus on areas of additional speciality there will not be a single job description to suit all. For example, areas of additional expertise may be related to service management, education &amp; training, or research; or have defined job roles or titles such as <b>Education Lead</b>, <b>Research Lead</b>, <b>Site Manager / Deputy Head of Service</b>.</i></p> <p><i>The full scope of the role will need to be described including these additional duties. The amount of additional duties may affect the local service job evaluation scoring or band outcome.</i></p> <p><b><i>The duties below should be selected where applicable and added in addition to the existing Band 7 Job Description as required:</i></b></p>
<b>1. Communication &amp; Relationship Skills</b>	<ul style="list-style-type: none"> <li>• Participation or lead in vascular science service meetings, which may occur on a weekly or monthly basis</li> <li>• Facilitating a learning environment</li> </ul>
<b>2. Knowledge, Training &amp; Experience</b>	<ul style="list-style-type: none"> <li>• Full accreditation with Society for Vascular Technology, Accredited Vascular Scientist (AVS)</li> <li>• Master's degree or equivalent level of knowledge plus further specialist training</li> <li>• Advanced theoretical and practical knowledge &amp; experience</li> <li>• Optional registration with the AHCS and/or HCPC</li> </ul>
<b>3. Analytical &amp; Judgemental Skills</b>	<ul style="list-style-type: none"> <li>• Regularly analyse and interpret all Vascular clinical science investigations, investigate discrepancy, and assure quality, where advanced decision making is required to ensure patients are fast-tracked in relation to limb salvage, aneurysm rupture, stroke prevention, or additional diagnostic imaging or onward urgent referral.</li> <li>• This will involve handling highly complex information which may also demonstrate conflicts requiring advance judgement, formulation of relevant options, and negotiation skills (such as developing business cases or service development).</li> </ul>
<b>4. Planning &amp; Organisational Skills</b>	<ul style="list-style-type: none"> <li>• Manage the local clinical workload of vascular science service staff, involving work planning, and supervision.</li> </ul>
